CONVENTION WITH BELGIUM. A liberal consular convention, which has been negotisted with Belgium, will be submitted to the Senate.

BIGHTS OF NATURALIZED CITIZENS. The very important treaties which were negotiated between the United States and North Germany and Bavaria, for the regulation of the rights of naturalized citizens, have been ratified and exchanged, and similar treaties have been entered into with the Kingdom of Belgium and Wurtemburg, and with the Grand Duchess of Baden and Hesse Darmstadt.

I hope soon to be able to submit in gold. equally satisfactory conventions of the ame character, now in course of negotiation, with the respective governments of Spain, Italy and the Ottoears, and backed out of their former

THE UNITED STATES AND GREAT BRITAIN. The examination of claims against the United States by the Hudson Bay Company and the Puget's Sound Agricultural Company, on account of certain possessory rights in the State of Oregon and Territory of Washington, alleged by those companies in virtue of the provisions of the treaty between the United States and Great Britain of June 15, 1846, has been diligently prosecuted under the direction joint international commission. to which they were submitted for adjudication, by the treaty between the two governments, July 1, 1863, and will be concluded at an early day.

No practical relation concerning colonial trade and the fisheries can b accomplished by treaty between the United States and Great Britain until Congress shall have expressed their judgment concerning the principles of tons.

Three other questions, however, be-tween the United States and Great Britain remain open for adjustment. These are, the mutual rights of naturalized citizens; the boundary ques-tion (involving the title to the Island of San Juan, on the Pacific coast), and mutual claims arising since the year 1853, of the citizens and subjects of the countries, for injuries and depredaious committed under the authority of their respective governments. Negotiations upon these subjects are pending, and I am not without hope of being able to lay before the Senate for its consideration, during the present session, protocols calculated to bring to an end these justly-exciting and long-existing controversies.

THE CHINESE TREATY. We are not advised of the action of the Chinese government upon the liberal and auspicious treaty which was recently negotiated with its plenipotentiaries at this capital.

OUR RELATIONS WITH JAPAN. Japan remains a theatre of civil war, marked by religious incidents and political severities peculiar to that long isolated Empire. The Executive has hitherto maintained a strict neutrality among the belligerents, and acknowledges with pleasure that he has been frankly and fully sustained in that course by the enlightened concurrence and co-operation of the treaty powers -namely, Great Britain, France, the Netherlands, North Germany and
